Surface Indications

What a minor would very properly term

"surface indications" of what is beneath,

are the Eruptions, Boils, Sore Eyes,

Boils, and Cutaneous Eruptions with

which people are annoyed in spring and

early summer. The effluvia matter accumu-

lated during the winter months, now

makes its presence felt, through Nature's

endeavors to expel it from the system.

While it remains, it is a poison that festers

in the blood and may develop into Scrofu-

lism. This condition causes derangement

of the digestive and assimilatory organs,

with a feeling of enervation, languor, and

weariness—often lightly spoken of as "only

spring fever." These are evidences that

Nature is not able, unaided, to throw off

the corrupt atoms which weaken the vital

forces. To regain health, Nature must be

aided by a thorough blood-purifying medi-

cine, and nothing else is so effective as

Ayer's Sarsaparilla,

which is sufficiently powerful to expel

from the system even the taint of Hered-

itary Scrofula.

The medical profession endorse Ayer's

SARSAPARILLA, and many attestations of

the cures effected by it come from all parts

of the world. It is in the language of

the Hon. Francis Jewett, ex-State Sena-

tor of Massachusetts and ex-Mayor of

Lowell, "the only preparation that does

real, lasting good."

The whole physical mechanism becomes impaired by the heavy winter diet and lack of open air exercise. Ayer's Sarsaparilla is the proper remedy to take in the spring of the year to purify the blood, invigorate the system, excite the liver to action, and restore the healthy tone and vigor of the system.

The steamboat "Pride of the River" has taken the place of the "Centennial," and in consequence the trip between this place and the city is made in one hour less time. The "Pride of the River" is a handsome stern-wheeler and is in every respect the equal of the "Donahue," which has been taken off for repairs.

Lewis & Swift, lumber merchants, 215 Spear street, San Francisco, advertise in these columns lumber in the greatest variety. The Agua Caliente Springs Hotel, having been enlarged and refurnished is now one of the most elegant and attractive summer and winter resorts on the coast. Visitors will find the house supplied with every modern convenience, and no pains will be spared to make their stay pleasant and comfortable. Prices to correspond with the dull times.

There will be excellent trout fishing in Sonoma creek and all the small streams in the valley this season. The recent rains having filled the creeks and rivulets trout have been enabled to run and the streams are full of them. In April last year the streams were very low, many of the small brooks being entirely dry, and in consequence fishing was poor. In about a week we expect to record some large catches.

BOARD OF CITY TRUSTEES.

They Hold a Special Meeting and Transact Important Business.

A special meeting of the Board of Trustees was held last Monday at the usual place of meeting. President Harashty occupied the chair and Trustees Wegner and McDonnell were present.

The minutes of the last meeting were read and approved.

The President declared the admission of the new Trustees to be in order, and C. McDonnell, L. B. Lawrence and H. C. Mangel filed their oaths of office and took their seats.

The bond of James McDonnell, Jr., Clerk, was read and accepted, he then took his place at the desk, after having filed his oath of office.

The President then said it was in order to elect a President of the Board for the next term. No nominations were made and each Trustee voted as he pleased. Trustees Lawrence and Wegner being appointed tellers, the ballots were cast and resulted as follows: First ballot—Lawrence 1, McDonnell 2, Harashty 1, McDonnell 2, Harashty 2, Third ballot—Lawrence 1, Harashty 3, Manuel 1.

The Clerk declared that Mr. Harashty, having received a majority of all the votes, was duly elected President of the Board for the ensuing term.

THE SUPERVISORS.

They Wrestle with that Bond Business.

The following action was taken by the Supervisors on Thursday of last week in regard to the lawsuit the county has on hand, growing out of refunding the bonded indebtedness of the county.

The Board convened at 9 a. m. Present—O'Hara, Connolly, Coulter, Allen and L. G. Ellis in the chair. The minutes of the last meeting were read and approved.

Mr. Coulter then made the following motion, which was carried: "Referring to the suit of Louis Pedrotti vs. The Board of Supervisors of Sonoma County et al. I move that it be made the order of the Board that D. C. Allen (District Attorney), Thos. Rutledge, Esq., and T. J. Geary, Esq., be, and are hereby employed and authorized to appear on behalf of the defendants in said action, and any other action that may arise out of the proposition to refund the bonded indebtedness of Sonoma county, on behalf of the county and its officers."

On motion of Mr. Allen, the following opinion of the associate counsel was adopted and placed on the minutes:

To the Honorable Board of Supervisors of Sonoma County—Gentlemen: We have examined the act of the Legislature approved March 18, 1885, in relation to refunding the bonded indebtedness of counties, etc., and we are satisfied that the act is constitutional, and authorizes this county to refund such bonded indebtedness. We have also examined the complaint in the present action of Louis Pedrotti vs. The Board of Supervisors of Sonoma County et al., and would say as no injunction has been issued, or allowed in said action, none of the defendants can be held in contempt of Court for proceeding under the provisions of the said act of March 18, 1885. That the mere bringing of suit for injunction is not equivalent to an injunction, and until the Court directs the issue of an injunction, and you have notice thereof, no contempt can be committed. We do not think the plaintiff in the case referred to can maintain his action.

Yours truly,
THOS. RUTLEDGE,
D. C. ALLEN,
T. J. GEARY,
District Attorneys.

Santa Rosa, April 19, 1888.

J. W. Ragsdale of the firm of Ragsdale & Cannon, was instructed to have printed another entire new issue of the bonds, as the dates upon the ones that have been printed are wrong. The lithographic stones having been preserved, the cost will be nominal.

On motion of Mr. Allen, a warrant was ordered drawn for \$150 in favor of the District Attorney, to defray the expenses of the stay of proceedings in the case of Louis Pedrotti vs. the Board of Supervisors of Sonoma county et al., now pending in the Circuit Court of the United States for the district of California, and that the District Attorney file with this Board the vouchers as they are paid. If any sum shall remain in his hands after all of the costs are paid, he shall pay the same into the County Treasury.

The sum of \$500 was allowed Messrs. Rutledge and Geary as retaining fees, and \$125 allowed D. C. Allen.

On motion of Mr. Connolly, the Board then adjourned until Monday, May 3d, at 10.30 a. m.

Hessian flies are beginning to do some damage to the wheat in this section.

Over 200 tons of granite will have been used on the Court House grounds when completed.

In conversation with several farmers since the recent storms we learned that some vineyards in this vicinity were injured considerably from washing. Those which suffered most in this way have a soil of a sandy nature, situated on hillsides.

By proper precaution and forethought in making open drains and different points all this trouble could be obviated and at little cost.

A subscription list is being circulated for subscriptions toward the building of a railroad from this city to Benicia. It is stated that two gentlemen have already subscribed \$5,000 each. Subscriptions are taken varying in amount from \$2.50 upwards, and the money is not to be collected until the work has commenced. If the project is successfully carried out what a bright future will be opened for Sonoma county.

The reporter accented a Chinaman on the street Saturday afternoon with the question, "Well, John, when are you going away?" John answered, "Me sabbe, me go in two weeks." It appeared from the Chinaman's broken conversation, that the Chinese population in this city has decreased about one-half since the anti-Chinese movement started, and they are still going. There are a few who manage to live by taking in washing, and some who are still employed as servants; the latter, however, are very few. Within the last week three Chinese house servants have been discharged, and they were working for people who have not signed the pledge. How their life is becoming a mystery. Dozens of them may be seen loitering on Hinton avenue every day. Investigation shows that the principal thing served on the table in the two Chinese boarding houses on Hinton avenue is a kind of leaf and root which grows along the banks of the creek.

Donahue Line to Extend to Napa Junction.

[S. F. Chronicle.]

The San Francisco and North Pacific Railroad Company, which has long suffered for want of proper facilities for the delivery of its overland freight to the Central Pacific Railroad, is about to make an important move. A branch is to be constructed from Novato, on the line of the road, above San Rafael, across Petaluma creek to Sears' Point, about two miles above Sonoma Landing on the Donahue line running to Glen Ellen. A portion of this latter line will be utilized in forming a route to Napa Junction, about sixteen miles distant from the Sonoma road. At Napa Junction connection will be made with the Central Pacific. It will not be necessary to transship overland freight at the junction, as Central Pacific cars may be used, but even if this is found advisable, a great saving both in time and handling of shipments will be effected. The line will be of valuable service to the farmers and fruit-growers of Sonoma and Marin counties. At present they are obliged to make all shipments via Point Tiburon or Sausalito to this city, and the freight is subject to half a dozen transfers before it finally reaches the Central Pacific track at Oakland. In the matter of fruit shipments, where time is a great object, and the repeated handling of the packages is found to cause a deterioration in the condition and value of the fruit, the new line will be especially serviceable. It will have the tendency to increase the volume of overland traffic from the Sonoma Valley. Lumber, which has been subject to the same delays and expensive transfers, will also be shipped in larger quantities, and the great redwood forests of upper Sonoma and lower Mendocino counties will no doubt be extensively opened up during coming years, as a result of the construction of the proposed road. Wheat and other cereals, as well as the minor products of this region, will be shipped in larger quantities across the continent than is possible under the present inadequate terminal facilities of the Donahue line.

The road will be about twenty miles in length. It will involve the construction of a long and expensive drawbridge over Petaluma creek, which is quite broad at the point at which it will be found necessary to cross it. There will be some heavy work in the hills along the western portion of the proposed line, but beyond this the country is comparatively unbroken and track-building will be an easy matter. The preliminary work is to be commenced next Monday and grading is to begin as soon as practicable after the surveys are completed. It is the reported intention of the company to have the twenty miles of track laid in time to be of use for the autumn shipment of fruit and grain.

The new route will be an advantage to passengers over the Sonoma Valley Railroad, as by the completion of an all-rail line from Glen Ellen to Tiburon a saving of about an hour will be made in the time between this city and Sonoma, Glen Ellen and other points.
